

Heute schon bei EWE

#dasMorgenmachen

Because digital energy trading can't wait any longer: At **EWE TRADING GmbH**, we handle the energy trading activities of the EWE Group and act as the Group's interface to the wholesale markets for energy and natural gas and emissions rights (EUA and CER). Join our mission and our great team to grow with us.

Working Student in Data Science and Energy Trading (f/d/m)

Would you like to:

- get introduced to power trading and understand the drivers of the market
- help us to get more data visualized
- support our traders to make better commercial decisions
- use data to analyse the market and develop trading strategies
- influence our processes and systems by questioning our routines

What you bring with you:

- enrolled student in an industrial engineering, physics, data science, economics, mathematics, or similar programme
- an analytical mindset
- good programming skills in Python and JavaScript (ideally React)
- experience with data visualization and web interfaces
- basic understanding of the energy market preferred but not required

What we offer:

- six-month employment with the option of extension
- gain experience in Short Term Power as a working student
- you will gain insights into day-to-day business and the opportunity to help shape and advance cross-departmental topics
- we rely on flexible working hours that can be reconciled with your studies
- you are still looking for an exciting thesis: We will find the right topic for you around energy trading
- remote work to some degree is possible

... and last but not least a work with the most beautiful view over Bremen!

Contribute to our success story!

Please submit your application documents along with your desired salary, your earliest possible starting date, and the EWE reference number through the [link](#).

We're looking forward to meeting you!

We are committed to the integration of people with disabilities and therefore encourage them to apply. This position is open to people of all genders.

We emphasise diversity and reject discrimination. What's important to us is that you fit in as a person. **You're all that counts!**
